Previous Meetings

This workshop is the 13th of a series of international meetings. The last three meetings took place in Germany (1996), France (1997), and Italy (1998) .

Purposes and Scope

The aim of UNIF'99, as that of the previous meetings, is to bring together people interested in this field, to discuss new ideas and trends about unification and its extensions. This meeting is open to people interested in other related areas, who could profit of this opportunity to have an overview of the state of the art in this research area.

The **topics** of the workshop include, but are not limited to:

Unification algorithms	Narrowing	Higher order Unification
Modular Unification	E-unification	Disunification
Typed Unification	Constraint resolution	Unification Calculi
Applications	Implementations	

Organizers:

Manfred Schmidt-Schauß (Chair)	schauss@cs.uni-frankfurt.de	+49(69)798-28597
Marko Schütz	marko@cs.uni-frankfurt.de	+49(69)798-22890
